

## Enterprise Solutions for: Wireless Email, Calendar, Contacts & Tasks

### NotifyLink Enterprise Edition

Today, corporations need an effective way to connect to their increasingly mobile workforce: outside sales representatives, telecommuters, traveling executives, evening-at-home workers, among others. This need creates a challenge linking the mobile professionals to their corporate email, calendar, contacts, tasks, and files that reside on their corporate server, or on the users desktop computer.

As companies face these challenges of providing mobile access to corporate email, calendar, contacts, tasks, and files, Notify Technology has designed the NotifyLink Enterprise solution with the Corporate User and the IT Professional in mind. This solution is easy to install within a company's existing Corporate Email system. With the NotifyLink Enterprise Edition, corporations will easily link to their mobile workforce via the Kyocera 7135 smartphone.

NotifyLink Enterprise Edition is ideal for mobile professionals who need real time "Over-the-Air" Synchronization and "Push Notification" of their email, calendar, contacts, and tasks. Users can read, compose, reply, forward, and delete email messages from their Kyocera 7135 smartphone.

In addition, the NotifyLink Solution provides support for multiple devices, multiple networks, control of global settings, high-level security, encryption of messages, and synchronization capabilities.

Mobile Professionals will be able to store, refer, and respond to their email, calendar, contacts, and tasks without having to Boot-Up, Dial-Up or Log-On.

### NotifyLink WorkGroup Edition

The NotifyLink WorkGroup Edition is a departmental solution for Corporations and Organizations who want the functionality of the Enterprise Edition without having to utilize IT Department resources. This solution is simple to install and maintain.

With NotifyLink's WorkGroup Edition, mobile professionals will be able to send and receive secure wireless push notification of email, calendar, contacts, and tasks. Users can read, compose, reply, forward, and delete email messages from their Kyocera 7135 smartphone.

The WorkGroup Edition is installed onto a PC within a department or group of users located behind the corporate firewall.

Mobile Professionals will not just be able to browse through, they will be able to store, refer, and respond to their email, calendar, contacts, and tasks without having to Boot-Up, Dial-Up or Log-On.
