WordSmith: real word processing for your Kyocera 7135 smartphone has arrived

WordSmith® is the most advanced, intuitive and full-featured word processor, e-book reader and enhanced memo pad available for Palm hand helds. This powerful and versatile package not only supports spell checking, thesaurus, and rich text, such as bold, italics and underline but also paragraph formatting, font selection, color and footnotes.

WordSmith is fully compatible with Microsoft® Word, includes a bi-directional synchronization conduit for Windows® and the Mac OS®, and offers a command-line document converter for Linux/Intel users. WordSmith is also compatible with any word processor capable of reading and writing "RTF" files. Lastly, WordSmith is the winner of numerous awards including a 2002 PC World World Class Award for Best PDA Software, the Best Doc Editor/Viewer of 2000 and 2001 (Handheld Computing) and Best Software Application of 2001 (VisorCentral) Only \$29.95 at www.bluenomad.com
