

Pitch Solo™

Project Yourself

Transform your Kyocera 7135 smartphone into a presentation powerhouse and leave the notebook behind!

Pack Pitch Solo as your traveling companion and you'll deliver PowerPoint® presentations in a snap. Powered by iPresent – iGo's leading presentation conversion software and a Pentium-class processor, Pitch puts heavyweight graphics performance at the tips of your fingers.

Move Ahead

Pitch Solo offers slide advance/return functionality via remote IR from your Kyocera 7135 smartphone

Sync and Show

Sync your presentation to your Kyocera 7135 smartphone before you hit the road and then download it to Pitch. You're up and running in a snap.

Lighten your Load

Replaces the need for your notebook on the road. Now you can deliver notebook-quality graphics directly from your Kyocera 7135 smartphone handset.

Power Trip

Pitch Solo is powered by iGo's iPresent presentation conversion software and a Pentium-class processor to combine leading document viewing technology, powerful processing capabilities, and true portability.

iGo Mobility Products (continued)

Pitch: Project Yourself

Travel light and get it right with Pitch in your pocket! Easy to use and ready when you are, Pitch Solo takes your Kyocera 7135 smartphone where it's never gone before. All you'll ever need for powerful presentations that don't weigh you down.

Pitch Solo Offers:

- PowerPoint support for Kyocera 7135 smartphone.
- Slide storage in internal smartphone memory or SD/MMC cards.
- Any length slide show via SD cards, limited only by card memory size (currently max 128MB).
- IR remote control with slide advance/reverse during slide show.
- Video (sVGA) port for connection to LCD projector, plasma screen or monitor, PS/2 ports for mouse and keyboard and 2 USB ports.
- A compact carrying case that holds both Pitch and its AC Adapter securely in place for total ease and portability.
- No special cables needed. The Kyocera 7135 connects to Pitch Solo via the standard USB syncing cable.

VGA out, 2 PS/2, and 2 USB ports

iDisplay Software Features:

- Palm OS applications can be displayed as they appear on the Kyocera 7135 smartphone from any VGA appliance.
- Support for integral keyboard and mouse ports (PS/2)*.
- Support for click and drag interface via the mouse.
- Text entry capability into applications via a PS/2 keyboard.

Compact carrying case

iPresent Software Features:

- Easily convert slides from PowerPoint on your PC and HotSync them to your Kyocera 7135 smartphone.
- Smartphone application allows user to select from any number of PowerPoint slide sets that have been HotSync'd.
- Displays Slide View, Note View or Outline View on your Smartphone during your presentation.
- Added capabilities such as a slide list, slide hide and slide reorder enable changes to be made on the fly.
- Fast slide transition times due to Pentium-class graphics processing and Solo's on-board memory.

iDisplay and iPresent software
