

mobile PhoneTools®

Use Kyocera mobile PhoneTools® to easily manage and personalize your phone.

- Enter names, numbers and other contact information into your PC, then quickly move them to your phone.
- Sync your calendar between your phone and PC.
- Transfer custom ringers from your PC to personalize your phone.
- Use phone and video management features to transfer images to and from your phone.*
- Turn your phone into a wireless modem.*

* Dependent on phone features. Refer to phone user guide regarding feature availability
